Product Description

LS Tractor MT226E Compact Tractor - ROPS w/ LL3002 Loader

The **LS Tractor MT226E ROPS with LL3002 Loader** is a dependable and easy-to-use compact tractor designed for homeowners, landowners, and small farm operations. Built for versatility and durability, this model is ideal for handling everyday tasks with confidence and efficiency.

Equipped with a reliable LS diesel engine, the MT226E delivers strong, fuel-efficient performance for a wide range of applications including mowing, grading, hauling, and loader work. The **LL3002 front-end loader** adds excellent lifting capability, making it easy to move dirt, gravel, mulch, and other materials around your property.

This ROPS (Roll-Over Protective Structure) model offers an open operator station with excellent visibility and easy access, giving you a comfortable and practical setup for long workdays. The hydrostatic transmission provides smooth, effortless operation with simple forward and reverse control—perfect for both experienced operators and first-time users.

Key Features:

- Reliable LS diesel engine for consistent, efficient performance
- **LL3002 front-end loader** for lifting, loading, and material handling
- ROPS open station for safety, visibility, and easy access
- Hydrostatic transmission for smooth, user-friendly operation
- Compact design for maneuverability in tight spaces
- Ideal for mowing, driveway maintenance, landscaping, and general property work

The LS MT226E ROPS with LL3002 loader is a hardworking, versatile tractor that's built to handle your

property with ease—making it a great choice for getting more done in less time.
