Product Description

LS Tractor MT226HE Compact Tractor - ROPS w/ LL3002 Loader

The **LS Tractor MT226HE ROPS with LL3002 Loader** delivers the perfect balance of power, comfort, and versatility for property owners and small farm operators. Built with LS's reputation for durability and performance, this compact tractor is ready to handle a wide range of jobs with ease.

Powered by a dependable LS diesel engine, the MT226HE provides smooth, efficient performance for tasks like mowing, grading, loader work, and general property maintenance. The **LL3002 front-end loader** adds excellent lifting capability, making it easy to move dirt, gravel, mulch, and other materials quickly and efficiently.

The "HE" model features an upgraded operator experience, including a refined hydrostatic transmission and enhanced operator controls for smoother operation and increased productivity. The ROPS (Roll-Over Protective Structure) open station offers excellent visibility, easy access, and a comfortable working environment for long days on the tractor.

Key Features:

- Reliable LS diesel engine for strong, fuel-efficient performance
- **LL3002 front-end loader** for lifting, loading, and material handling
- Hydrostatic transmission for smooth, easy forward/reverse operation
- Upgraded "HE" features for improved operator comfort and control

- ROPS open station for safety, visibility, and accessibility
- Compact design for maneuverability around homes, barns, and tight areas
- Ideal for mowing, landscaping, driveway maintenance, and light farm work

The LS MT226HE ROPS with LL3002 loader is a dependable, easy-to-operate tractor built to help you get more done—whether you're maintaining property or tackling your next project.
