Product Description

Woods TurfKeeper TK60.20 Finish Mower - 60"

Woods TurfKeeper TK60.20 Finish Mower - 60"

The Woods TurfKeeper TK60.20 is a dependable 60" finish mower built for a clean, smooth cut on lawns, parks, estates, athletic fields, and large maintained properties. Its 5-foot cutting width gives you great coverage while still being easy to maneuver behind compact and utility tractors.

Designed for turf maintenance, the TK60.20 is ideal for areas where appearance matters. It delivers a polished finish compared to a standard rotary cutter, making it a great choice for property owners, municipalities, schools, farms, and anyone maintaining larger grassy areas.

Key Features:

- 60" cutting width
- Rear finish mower design
- Great for lawns, parks, estates, and maintained acreage
- Provides a cleaner finish than a standard rotary cutter
- Ideal for compact and utility tractors
- Durable Woods construction
- Great for property maintenance, farmyards, and commercial mowing

A solid choice for anyone needing a quality-built finish mower that leaves a clean, professional-looking cut across larger turf areas.
