Product Description

Woods BrushBull Cutter BB84.40D – 84"

The Woods BrushBull BB84.40D is a heavy-duty 7-foot rotary cutter built for serious mowing and brush control. With an 84" cutting width, this cutter is a great choice for maintaining pastures, fields, roadsides, hunting land, farm lanes, and large acreage properties.

The "D" model features a dual-spindle design, giving it a lower-profile deck and helping provide smooth, efficient cutting across wider areas. Built with Woods' durable construction, the BB84.40D is made to handle grass, weeds, and brush while standing up to regular farm and property maintenance use.

Key Features:

- 84" cutting width
- Dual-spindle BrushBull rotary cutter design
- Heavy-duty Woods construction
- Great for pastures, fields, roadsides, and acreage maintenance
- Helps control grass, weeds, and brush
- 3-point hitch attachment
- Wider coverage than standard 5' or 6' cutters
- Ideal for farm, ranch, and large property cleanup

A strong and dependable cutter for anyone needing wide coverage, durable performance, and the quality Woods equipment is known for.
