Product Description

STIHL FCA 135 Curved-Shaft Edger

The **STIHL FCA 135 Curved-Shaft Edger** is a professional-grade battery-powered edger built for clean, precise edging without the hassle of gas. Powered by the STIHL AP battery system, this edger delivers strong performance for maintaining sidewalks, driveways, curbs, walkways, and landscape beds.

With its curved-shaft design and quiet battery operation, the FCA 135 is a great choice for landscapers, property maintenance crews, municipalities, and homeowners who want dependable cutting power with lower noise and reduced maintenance. It provides the performance needed to cut through overgrown edges while helping give lawns and landscapes a clean, finished look.

Key Features:

- Professional-grade battery-powered edger
- STIHL AP cordless power system
