Product Description

Stihl TS420 CutQuik 14"

NOTE: Abrasive wheel included. Diamond wheel (shown) sold separately.

- The STIHL TS 420 Cutquik® is a powerful and dependable 14" cut-off machine built for tough cutting jobs in construction, masonry, landscaping, farm, and property maintenance work. It is a great choice for cutting concrete, brick, block, pavers, stone, asphalt, metal, and other hard materials when paired with the proper wheel.

Known for STIHL quality and performance, the TS 420 offers strong cutting power in a well-balanced design that is easy to handle on the jobsite. Whether you're doing concrete work, repairs, demolition, or general cutting projects, this saw is built to get the job done.

Key Features:

- 14" cut-off machine
- Great for concrete, brick, block, pavers, asphalt, stone, and metal cutting
- Powerful STIHL performance
- Well-balanced design for easier handling
- Ideal for construction, masonry, landscaping, and farm use
- Dependable choice for jobsite and property maintenance work

A solid option for contractors, property owners, and crews needing a reliable cut-off saw for heavy-duty cutting applications.
