Product Description

Backwoods BW-BS72 Box Scraper 72"

The Backwoods box scraper easily carves into sod and dirt with its full-length, high-strength, double beveled cutting edges. Available in 4', 5' and 6' models.

- CAT 1 hitch, quick hitch compatible
- Work efficiently on 25-45 HP tractors
- Adjustable scarifier height
- Heat treated scarifier teeth
- Reversible, bolt-on cutting edge prolongs product life and enables easy replacement
- Durable, corrosion resistant powder coat finish

The Backwoods BW-BS72 Box Scraper is a tough and dependable 6-foot box blade built for grading, leveling, and maintaining your property. It's a great attachment for driveway repair, spreading gravel, smoothing dirt, cutting high spots, filling low areas, and general land maintenance.

With its 72" working width, this box scraper pairs well with compact and utility tractors, giving you the size and strength needed for larger driveways, farm lanes, pads, and property cleanup projects. The rear blade helps smooth material as you go, while the box design holds and moves dirt, gravel, and loose material efficiently.

Key Features:

- 72" working width
- 3-point hitch attachment
- Great for grading driveways, gravel roads, and dirt areas
- Helps level, spread, cut, and fill material
- Ideal for property maintenance, farm use, and small land projects
- Works well with compact and utility tractors

A solid choice for landowners, farms, and property owners needing a reliable attachment for driveway maintenance, grading, and dirt work.
