Product Description

Stihl HS82T Hedge Trimmer 24"

Power, portability, and precision make the STIHL HS 82 T a great choice for professional landscapers tackling fine pruning tasks. The "T" indicates a cutting blade specially designed for precision sculpting and trimming applications. Available in both 24- and 30-inch blade lengths, the HS 82 T also features a low exhaust emission engine that uses 20% less fuel than previous models, reducing fuel costs and improving the bottom line. Combined with its low-vibration technology and a swivel handle for comfort and control, this trimmer is the machine pros have been looking for.

- **Rear Swivel Handle -**

Users can swivel the rear handle for improved comfort at various speeds.

- **Simplified Starting Procedure -**

To get started, users simply pump the fuel primer, set the choke, and pull the starter cord. The built-in stop switch allows the user to turn off the engine with a simple press of the button. When the engine is off, the throttle lock automatically returns to the "start" setting. The tool will be ready to start again when the user is ready to get back to work.

- **Double-Sided Blades -**

The dual-ground blade system provides a clean cut and is ideal for cutting through stronger, thicker branches.

- **Lightweight Portability -**

This product is lightweight for easy portability, great maneuverability, and extended use.

- **Tip Protector -**

The tip protector makes cutting near the ground or along walls easier while protecting the trimmer's cutters from damage.

- **Anti-Vibration System -**

STIHL has a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working

experience.

- **Compact, Ergonomic Design -**

The compact, ergonomic design helps reduce user fatigue.

- **Multi-Function Control Handle -**

Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

- **High-Tech Polymer Housing -**

Housings are lightweight, withstand greater impact, and are corrosion-resistant.

- **Throttle Trigger Lockout -**

This safety feature must be depressed before the trigger can be activated.
