Product Description

Stihl Yard Boss MM56C-E Cultivator

The MM 56 C-E YARD BOSS® has everything you need and more in a multi-tasking tool. With more power and fuel capacity than the previous model, the MM 56 C-E can help you finish a number of tasks quickly and efficiently. It comes standard as a cultivator and is ideal for breaking up weeds and hardened soil in flower beds or gardens. The MM 56 C-E also easily transitions to any of its eight optional attachments to become a trimmer, edger, dethatcher, lawn aerator, and more, allowing you to use the right tool for the right application with ease. The STIHL Easy2Start™ system provides a fast and almost effortless start with a gentle pull of the cord, making managing your landscape a breeze. When finished, the STIHL MM 56 C-E YARD BOSS® folds easily for compact storage and transport.

- **Compact Design -**

The folding handles and front hand grip make the YARD BOSS® compact and easy to transport and store.

- **Purge Pump Primer -**

A small fuel pump delivers fuel to the carburetor when pushed, reducing the number of starting strokes required following extended breaks in operation.

- **Protected Spark Plug -**

The spark plug terminal is protected yet easy to change.

- **Made in America -**

A majority of STIHL products sold in America are made in America of U.S. and global materials.

- **Multi-Function Control Handle -**

Having easy access to all of the controls on one comfortable handle makes it easy to complete tasks so the operator's hand never has to leave the handle.

- **Multi-Tasking Tool -**

Switch between any of the eight YARD BOSS® optional attachments quickly.

- **STIHL Easy2Start™ -**

The STIHL Easy2Start™ system makes starting STIHL outdoor power tools almost effortless, eliminating the need for a strong pull of the starting cord. This advanced starting system is designed to make starting STIHL products fast and easy. The specific system may vary by model, but in each case, a quick pull overcomes the engine's compression to minimize the strength and effort required to start. Available on select products.
