### Product Description

# LS Tractor Rotary Cutter MRC3060SC - 60"

Step up to more cutting power and productivity with the LS Tractor MRC3060-SC 5' Rotary Cutter—built to handle larger properties, thicker growth, and longer workdays. Designed for compact and utility tractors, this cutter delivers a perfect balance of durability, performance, and efficiency.

Equipped with a heavy-duty 50HP gearbox and a fully welded 10-gauge steel deck, the MRC3060-SC is made to tackle tough mowing conditions with confidence. Whether you're maintaining pasture, clearing overgrowth, or cutting brush up to 2" in diameter, this cutter is built to perform consistently and reliably.

The wider 5' cutting width allows you to cover more ground in less time, while the high blade tip speed ensures a clean, efficient cut. A pan-style stump jumper protects the drivetrain from hidden obstacles, and the reinforced tail-wheel arm is designed to withstand demanding terrain—even in situations where the rear of the tractor may lift.

With adjustable cutting heights from 2" to 10", you can easily tailor your results to match the job at hand. Built for Category 1 tractors in the 24-50 HP range, including LS MT2 and MT2E series, this cutter is a strong, dependable addition to your equipment lineup.

### Key Features:

- **Heavy-duty 50HP gearbox** for increased power and durability
- **5' cutting width** for greater productivity and efficiency
- **10-gauge welded steel deck & skirt** for long-lasting strength
- **2" cutting capacity** - ideal for grass, weeds, and light brush
- **High blade tip speed (16,366 ft/min)** for a clean, even cut
- **Pan-style stump jumper** protects blades and drivetrain
- **Adjustable cutting height (2"-10")** for versatile operation
- **Reinforced tail-wheel arm** built for rough terrain conditions
- **Puncture-resistant tail wheel (4" x 15")** for stability
- **Replaceable 1/4" skid shoes** extend equipment life
- **Series 4 PTO shaft (shear bolt or slip clutch options)**
- **Category 1, 540 PTO** - easy hookup

## **Specifications:**

- Model: MRC3060-SC
- Cutting Width: 60" (5 ft)
- Weight: 718 lbs
- Overall Width: 65 1/2"
- Length: 104"
- Height: 37"
- Deck Height: 7"
- Deck Thickness: 10 gauge
- Skirt Thickness: 10 gauge
- Gearbox Mount: 3/8" steel
- Blade Size: 1/2" x 3"
- Blade Tip Speed: 16,366 ft/min
- Cutting Capacity: Up to 2" diameter
- PTO: 540 RPM
- Hitch: Category 1
- Warranty: 1-Year Limited

## **Compatible With:**

- LS MT2 Series
- LS MT2E Series

If you need a tougher, wider cutter that can keep up with bigger jobs, the LS MRC3060-SC is ready to go to work—delivering reliable performance and clean results every time.
