Product Description

LS Tractor Rotary Cutter MRC3048SC - 48"

The LS Tractor MRC3048-SC 4' Rotary Cutter is a rugged, dependable solution for maintaining property, cutting pasture, and clearing light brush. Designed specifically for compact tractors, this cutter delivers the strength and performance you need in a manageable size—perfect for tight spaces, fence lines, and smaller acreage.

Built with a heavy-duty 40HP gearbox and a fully welded 10-gauge steel deck, the MRC3048-SC is made to handle real-world conditions. From thick grass to brush up to 2" in diameter, this cutter provides consistent, clean performance while protecting critical components with its pan-style stump jumper and durable driveline options.

The reinforced tail-wheel arm and puncture-resistant tail wheel provide excellent stability and durability, even over rough terrain. With adjustable cutting heights from 2" to 10", you can easily dial in the finish you want—whether you're maintaining pasture or reclaiming overgrown land.

Designed for Category 1 tractors in the 24-40 HP range, including popular LS models like the MT122, MT125, and XJ2025H, this cutter is a perfect match for compact tractor owners looking for reliability and value.

Key Features:

- **Heavy-duty 40HP gearbox** for dependable performance
- **10-gauge welded steel deck & skirt** for long-lasting durability
- **2" cutting capacity** - ideal for grass, weeds, and light brush
- **Pan-style stump jumper** protects blades and drivetrain
- **Adjustable cut height (2"-10")** for versatile mowing
- **Reinforced tail-wheel arm** designed to handle rough terrain
- **Puncture-resistant tail wheel (4" x 15")** for stability
- **Replaceable 1/4" skid shoes** extend cutter life
- **Series 4 PTO shaft (shear bolt or slip clutch options)**
- **Category 1, 540 PTO** - easy hookup to compact tractors

Specifications:

- Model: MRC3048-SC
- Cutting Width: 48" (4 ft)
- Weight: 600 lbs
- Overall Width: 53 1/2"

- Length: 88"
- Height: 36 1/2"
- Deck Height: 7"
- Deck Thickness: 10 gauge
- Skirt Thickness: 10 gauge
- Gearbox Mount: 3/8" steel
- Blade Size: 1/2" x 3"
- Blade Tip Speed: 13,093 ft/min
- Cutting Capacity: Up to 2" diameter
- PTO: 540 RPM
- Hitch: Category 1
- Warranty: 1-Year Limited

Compatible With:

- LS MT122
- LS MT125
- LS XJ2025H

If you're looking for a tough, reliable 4' cutter that's built to handle everyday property maintenance, the LS MRC3048-SC is ready to go to work.
