Product Description

Gravely ZT 34" Zero-Turn Mower - 915288

The **Gravely ZT 34"** zero-turn mower is the perfect solution for homeowners who need a compact, powerful mower that can easily navigate tight spaces while still delivering a clean, professional-quality cut. Designed for smaller yards, gated areas, and properties with obstacles, this mower offers the durability and performance Gravely is known for in a more compact size.

Equipped with a **34-inch fabricated steel cutting deck**, the ZT 34 is built for strength and long-lasting performance. Its smaller deck size makes it ideal for maneuvering through narrow gates and around landscaping, while still providing excellent cutting results.

Powered by a **reliable Kawasaki® engine**, this mower delivers smooth performance and dependable starting. Paired with **Hydro-Gear integrated transmissions**, the ZT 34 offers responsive control and easy handling, making mowing efficient and enjoyable.

The **zero-turn steering system** allows for tight turns and precise control, helping you mow around obstacles with ease and reduce trimming time. A **comfortable high-back seat and ergonomic controls** provide a smooth and comfortable ride while maintaining full control of the machine.

Built with Gravely's durable construction and attention to detail, the **ZT 34"** is an excellent choice for homeowners who want a compact mower that delivers reliable performance and excellent cut quality.
