Product Description

DHE Atlas Agri "X" 4' Rotary Cutter - Compact Size, Heavy-Duty Cutting Power

The **DHE Atlas Agri "X" 4' Rotary Cutter** is built for landowners who need a tough, dependable mower in a compact size. Perfect for maintaining small properties, trails, and overgrown areas, this cutter is designed to handle grass, weeds, and light brush with ease.

Constructed with a heavy-duty steel deck and reinforced frame, the Atlas Agri "X" series is made to stand up to rugged conditions without flexing or wearing down. The 4-foot cutting width pairs perfectly with sub-compact and compact tractors, giving you excellent maneuverability while still delivering efficient cutting performance.

Equipped with durable, high-strength blades and a heavy-duty stump jumper, this rotary cutter is built to absorb impact and protect critical components when working in rough terrain. The adjustable tail wheel helps maintain a consistent cutting height, while the solid 3-point hitch design ensures a stable and secure connection to your tractor.

Whether you're clearing fence lines, mowing pastures, or maintaining your property, this cutter is ready to go to work.

Key Features:

- Heavy-duty steel deck and reinforced construction
- 4' cutting width - ideal for sub-compact and compact tractors
- High-strength blades for cutting grass, weeds, and light brush
- Heavy-duty stump jumper for added protection
- Adjustable tail wheel for consistent cutting height
- Perfect for property maintenance, trails, and light land clearing
- Standard 3-point hitch for quick and easy hookup

For reliable performance in a compact, easy-to-handle size, the **DHE Atlas Agri "X" 4' Rotary Cutter** is a solid choice that gets the job done right.
