Product Description

DHE Atlas Agri “X” 5' Rotary Cutter - The Perfect Balance of Power and Control

The **DHE Atlas Agri “X” 5' Rotary Cutter** is a versatile, heavy-duty mower designed for landowners and operators who need reliable performance across a variety of cutting conditions. Whether you're maintaining pastures, clearing overgrown areas, or managing property lines, this cutter delivers the durability and cutting power you can count on.

Built with a reinforced steel deck and rugged frame, the Atlas Agri “X” series is engineered to handle tough jobs without flexing or wearing down. The 5-foot cutting width is an ideal match for compact and mid-size tractors, giving you excellent maneuverability while still covering ground efficiently.

Equipped with high-strength blades and a heavy-duty stump jumper, this cutter is designed to take on thick grass, weeds, and light brush while protecting key components from impacts in rough terrain. The adjustable tail wheel ensures a consistent cutting height, even on uneven ground, while the sturdy 3-point hitch provides a secure and stable connection.

From pasture maintenance to property cleanup, this cutter is built to perform season after season.

Key Features:

- Heavy-duty steel deck and reinforced construction
- 5' cutting width – ideal for compact and mid-size tractors
- High-strength blades for grass, weeds, and light brush
- Heavy-duty stump jumper for added protection
- Adjustable tail wheel for consistent cutting height
- Great for pasture mowing, land clearing, and property maintenance
- Standard 3-point hitch for quick and easy hookup

For a dependable, all-around rotary cutter that offers the perfect balance of size and performance, the **DHE Atlas Agri “X” 5' Rotary Cutter** is ready to go to work.
