Product Description

DHE Atlas Agri "X" 6' Rotary Cutter - Built to Clear, Built to Last

The **DHE Atlas Agri "X" 6' Rotary Cutter** is a heavy-duty solution for landowners, farmers, and property managers who need dependable performance in tough cutting conditions. Designed to handle thick grass, heavy weeds, and light brush, this cutter delivers clean, consistent results across larger areas.

Built with a reinforced steel deck and rugged frame, the Atlas Agri "X" series is made to take on demanding work without flexing or wearing down. The 6-foot cutting width is ideal for compact and utility tractors, allowing you to cover more ground efficiently while maintaining control.

Equipped with high-strength blades and a heavy-duty stump jumper, this cutter is designed to handle rough terrain and protect key components from impact. The adjustable tail wheel helps maintain a consistent cutting height across uneven ground, while the solid 3-point hitch ensures a secure and stable connection to your tractor.

Whether you're mowing pastures, clearing overgrowth, or maintaining fence lines, this cutter is ready to perform season after season.

Key Features:

- Heavy-duty steel deck and reinforced construction
- 6' cutting width - ideal for compact and utility tractors
- High-strength blades for cutting thick grass and light brush
- Heavy-duty stump jumper for added protection
- Adjustable tail wheel for consistent cutting height
- Great for pasture maintenance, property cleanup, and land clearing
- Standard 3-point hitch for quick and easy hookup

If you need a reliable, hard-working rotary cutter that can handle larger jobs with ease, the **DHE Atlas Agri "X" 6' Rotary Cutter** is ready to go to work.
