Product Description

DHE Atlas Heavy Duty Box Blade 6'

DHE Atlas Heavy Duty 6' Box Blade - Power, Precision, and Durability

Take on demanding grading and land leveling jobs with confidence using the **DHE Atlas Heavy Duty 6' Box Blade**. Built for landowners, farmers, and contractors, this rugged attachment is designed to handle tough conditions while delivering smooth, professional results.

Constructed with a reinforced, heavy-duty steel frame, the Atlas series is made to stand up to hard use without flexing or wearing down. The 6-foot working width is ideal for compact and utility tractors, providing excellent coverage while maintaining control for precise grading work.

Outfitted with adjustable scarifier shanks, this box blade easily breaks through packed soil, gravel, and tough terrain, making it easy to loosen material before leveling. Dual cutting edges on the front and rear maximize efficiency when moving and smoothing material, and the reversible edges extend the life of the blade for long-term value.

Designed for convenience, the standard 3-point hitch allows for quick hookup so you can get to work faster.

Key Features:

- Heavy-duty steel construction for long-lasting performance
- 6' working width - ideal for compact and utility tractors
- Adjustable scarifiers for breaking up hard-packed ground
- Dual cutting edges for efficient grading and backfilling
- Reversible wear edges for extended blade life
- Great for driveway maintenance, land leveling, and site prep
- Standard 3-point hitch for easy attachment

For a dependable, heavy-duty box blade that's ready for serious work, the **DHE Atlas Heavy Duty 6' Box Blade** is a solid investment that won't let you down.
