Product Description

Bestway AG 12 Volt Spot Sprayer - 15 Gallon

The **Bestway AG EC-15D 12-Volt Spot Sprayer** is a compact and dependable 15-gallon sprayer designed for efficient weed control, fence line spraying, lawn care, and general property maintenance. Built for convenience and durability, this sprayer is ideal for homeowners, farmers, landscapers, and ATV or UTV applications.

Powered by a reliable 12-volt pump system, the EC-15D delivers consistent spraying performance for a wide variety of herbicides, pesticides, and liquid applications. Its compact 15-gallon tank size makes it easy to transport while still providing enough capacity to handle larger spraying tasks without constant refilling.

Designed for versatility and ease of use, the sprayer features durable construction, simple controls, and an easy hookup to most ATV, UTV, trailer, or tractor electrical systems. Whether you're maintaining food plots, controlling weeds around your property, or spraying fence rows, the EC-15D helps get the job done quickly and efficiently.

Key Features:

- 15-gallon tank capacity for efficient spraying coverage
- Reliable 12-volt pump system for consistent performance
- Ideal for weed control, lawn care, fence lines, and property maintenance
- Compact design for easy transport and storage
- Durable construction built for agricultural and property use
- Compatible with ATV, UTV, trailer, and tractor applications
- Easy-to-use controls for convenient operation

The Bestway AG EC-15D Spot Sprayer offers dependable spraying performance in a compact, user-friendly package—making it a great solution for maintaining fields, lawns, and property with ease.
