Product Description

LS Tractor MT242E Gear Drive - ROPS - w/ LL3003 Loader

The **LS Tractor MT242E Compact Tractor ROPS with LL3003 Loader** delivers the power, durability, and versatility needed for demanding property maintenance and light agricultural work. With increased horsepower and capability, this model is ideal for landowners ready to take on bigger jobs with confidence. Powered by a reliable LS diesel engine, the MT242E provides strong, fuel-efficient performance for tasks such as mowing, grading, loader work, and material handling. Paired with the **LL3003 front-end loader**, this tractor offers impressive lifting capacity and control—making it easy to move dirt, gravel, mulch, and more. The ROPS (Roll-Over Protective Structure) open station provides excellent visibility, easy access, and a comfortable operating environment. The hydrostatic transmission ensures smooth, intuitive operation with simple forward and reverse control, making this tractor a great choice for operators of all experience levels.

Key Features:

- Reliable LS diesel engine with increased horsepower for heavier workloads
- **LL3003 front-end loader** for lifting, loading, and material handling
- Hydrostatic transmission for smooth, easy operation
- ROPS open station for safety, visibility, and accessibility
- Compact design with the strength to handle larger property tasks
- Comfortable operator station with user-friendly controls
- Ideal for mowing, landscaping, driveway maintenance, and light farm work

The LS MT242E ROPS with LL3003 loader is a powerful, easy-to-use compact tractor built to handle tough jobs while maintaining the maneuverability and simplicity you need for everyday work.
