Product Description

LS Tractor MT242H HST - ROPS - w/ LL3003 Loader & LB3002 Backhoe

The **LS Tractor MT242H HST ROPS with LL3003 Loader & LB3002 Backhoe** is a fully equipped compact tractor package built to handle serious work around your property. Combining power, versatility, and ease of operation, this tractor is ideal for landowners, contractors, and anyone needing a complete solution for digging, lifting, and property maintenance.

Powered by a reliable LS diesel engine, the MT242H delivers strong, fuel-efficient performance for a wide range of applications. The hydrostatic (HST) transmission provides smooth, effortless control, making forward and reverse operation simple—especially during loader and backhoe work.

The **LL3003 front-end loader** offers excellent lifting capacity for moving dirt, gravel, and materials, while the **LB3002 backhoe** adds powerful digging capability for trenching, landscaping, drainage, and utility work. Together, this package gives you the flexibility to take on multiple jobs with one machine.

The ROPS (Roll-Over Protective Structure) open station provides excellent visibility, easy access, and a comfortable operating environment, allowing you to work efficiently throughout the day.

Key Features:

- Reliable LS diesel engine for strong, efficient performance
- Hydrostatic (HST) transmission for smooth, easy operation
- **LL3003 front-end loader** for lifting, loading, and material handling
- **LB3002 backhoe** for digging, trenching, and excavation work
- ROPS open station for safety, visibility, and accessibility

- Compact design with the power to handle demanding tasks
- Comfortable operator station with intuitive controls
- Ideal for landscaping, trenching, driveway work, and general property maintenance

The LS MT242H HST with loader and backhoe is a true all-in-one workhorse—giving you the tools you need to dig, move, and maintain your property with confidence and efficiency.
