Product Description

LS Tractor Rake Grapple MCG5401 - 54"

Get more done with the LS Tractor MCG5401 54" Grapple—engineered for strength, precision, and everyday durability. Built from high-quality AR400 steel, this grapple is designed to handle demanding tasks like brush clearing, log handling, and storm cleanup without bending or wearing down.

With a 54" rake width and 56" overall width, this grapple offers excellent coverage while still maintaining maneuverability for compact tractors. The aggressive tooth design—featuring 7 bottom teeth and 6 top teeth—delivers a strong, secure grip on uneven loads, while the open design allows dirt and debris to fall through, improving efficiency on every job.

The dual-cylinder setup provides powerful and even clamping force, with a 30" jaw opening that easily handles bulky material. At just 242 lbs, it's lightweight enough for smaller tractors without sacrificing strength or performance.

Designed with a universal skid steer quick attach, the MCG5401 hooks up quickly and works seamlessly with compatible LS models like the XJ and MT225S series.

Key Features:

- **AR400 steel construction** for superior strength and wear resistance
- **54" rake width / 56" overall width** for ideal balance of capacity and control
- **Dual hydraulic cylinders (2" bore, 4-3/4" stroke)** for strong, even clamping
- **30" jaw opening** for handling large, bulky material
- **7 bottom & 6 top teeth** for maximum grip and load security
- **Lightweight design (242 lbs)** - perfect for compact tractors
- **Universal skid steer quick attach** for fast, easy hookup

Specifications:

- Attach Type: Skid steer quick attach
- Material: AR400 steel
- Weight: 242 lbs
- Overall Width: 56"
- Rake Width: 54"
- Closed Height: 28"
- Jaw Opening: 30"
- Side Width: 19 3/5"

- Tooth Thickness: 0.24"
- Hydraulic Cylinder: 2" x 1-1/5" rod (4-3/4" stroke)

Compatible With:

- LS XJ Series
- LS MT225S

The LS MCG5401 is the perfect combination of strength, control, and efficiency—built to help you tackle tough jobs faster and with confidence.
