Product Description

DHE Atlas 5' Landscape Rake

Clean, Level, and Ready to Finish

The **DHE Atlas 5' Landscape Rake** is the perfect tool for achieving a clean, professional finish on your property. Whether you're grading soil, spreading gravel, or removing debris, this rake makes quick work of leveling and cleanup jobs around homes, farms, and job sites.

Built with a durable steel frame, the Atlas series is designed to hold up to regular use without bending or flexing. The 5-foot working width is ideal for compact tractors, offering excellent maneuverability while still covering ground efficiently.

Equipped with strong, flexible rake tines, this unit easily gathers rocks, sticks, and debris while smoothing out soil and gravel surfaces. The adjustable angle feature allows you to windrow material for easy collection or spread it evenly across your work area, giving you greater control over your results.

Perfect for landscaping, driveway maintenance, seedbed preparation, and general property upkeep, this rake is a versatile addition to your equipment lineup.

Key Features:

- Durable steel construction for long-lasting performance
- 5' working width - ideal for compact tractors
- Strong rake tines for gathering debris and smoothing surfaces
- Adjustable angle for windrowing or spreading material
- Great for landscaping, driveway grading, and cleanup work
- Helps remove rocks, sticks, and loose debris
- Standard 3-point hitch for quick and easy hookup

For a smooth, finished look every time, the **DHE Atlas 5' Landscape Rake** is a dependable, easy-to-use tool that gets the job done right.
