Product Description

LS Tractor MRC5084 Rotary Cutter HD - 84"

The **LS MRC5084SC Rotary Cutter** is a rugged 7-foot heavy-duty rotary cutter built for demanding mowing and brush-clearing applications. Designed for durability and high-performance cutting, this cutter is ideal for maintaining pastures, fields, roadsides, and overgrown property.

Powered by an **83 HP heavy-duty gearbox**, the MRC5084SC is engineered to handle tough conditions with confidence. Its reinforced deck construction features a **10-gauge deck with a 7-gauge center section**, providing added strength in high-stress areas for long-lasting durability. The cutter is equipped with a dependable **slip clutch PTO driveline** to help protect the driveline from shock loads during operation.

The heavy-duty blade system and high blade tip speed deliver clean, efficient cutting performance on thick grass, weeds, and brush up to **2 inches in diameter**. Replaceable skid shoes and a puncture-resistant tail wheel help maintain consistent cutting height while extending the life of the cutter in rough terrain.

Key Features:

- 7' cutting width for efficient coverage of large areas
- 83 HP heavy-duty gearbox for dependable performance
- Reinforced deck with 10 GA deck and 7 GA center section
- Slip clutch PTO driveline for added drivetrain protection
- Heavy-duty blades designed for aggressive cutting performance
- Replaceable 1/4" skid shoes for increased durability
- Puncture-resistant tail wheel for smooth operation
- Category 2 3-point hitch compatibility
- Designed for tractors ranging from **35-83 HP**
- Cuts material up to **2" diameter**

Specifications:

- Working Width: 84"
- Weight: 1,100 lbs
- Cutting Height Range: 3" - 6 1/4"
- Blade Tip Speed: 13,605 ft/min
- PTO Requirement: 540 RPM

Compatible with **LS MT5 Series tractors**, the LS MRC5084SC delivers the durability, cutting power, and reliability needed for serious field and property maintenance work.
