Product Description

LS Tractor Tiller MRT6001 - 60"

The **LS MRT6001 Rotary Tiller** is a durable and efficient 60-inch rotary tiller designed to prepare soil for gardens, food plots, landscaping, and small farming applications. Built to deliver smooth, consistent soil conditioning, the MRT6001 is an excellent attachment for property owners and growers looking to create a clean, well-worked seedbed with less effort.

Designed for tractors ranging from **25-40 horsepower**, this tiller features a heavy-duty driveline and rugged construction for dependable performance in a variety of soil conditions. With a generous **60-inch tilling width**, the MRT6001 covers ground efficiently while remaining maneuverable enough for smaller properties and tighter working areas.

Equipped with **42 heavy-duty blades**, the tiller breaks up compacted soil, mixes organic material, and creates a smooth planting surface with impressive results. Capable of reaching up to **11 inches of tilling depth in optimal conditions**, the MRT6001 is ideal for gardening, landscaping preparation, and food plot maintenance.

Key Features:

- 60" tilling width for efficient soil preparation
- Designed for tractors ranging from **25-40 HP**
- Heavy-duty construction for durability and long service life
- 42 tiller blades for excellent soil mixing and pulverization
- Up to 11" tilling depth in optimal conditions
- Ideal for gardens, food plots, landscaping, and property maintenance
- Smooth, consistent soil preparation for planting and seeding

Specifications:

- Tilling Width: 60"
- Recommended Tractor HP: 25-40 HP
- Weight: 443 lbs
- Tilling Depth: Up to 11"
- Total Blades: 42

Compatible with **LS MT225E and MT226E tractors**, the LS MRT6001 Rotary Tiller is a dependable attachment built to help you prepare ground quickly, efficiently, and with professional-quality results.
