Product Description

LS Tractor Box Blade MBB3072 - 72"

The **LS MBB3072 Box Blade** is a heavy-duty 6-foot box blade built for grading, leveling, backfilling, and driveway maintenance. Designed for durability and dependable performance, this implement is ideal for property owners, farmers, and contractors needing a reliable tool for maintaining roads, landscaping projects, and general ground work.

Built with rugged **1/4-inch moldboard and side panel construction**, the MBB3072 is engineered to handle demanding jobs while providing smooth, consistent grading performance. The heavy-duty **1/2-inch welded lift attachment brackets** ensure a strong connection and long-lasting durability in tough working conditions. With its wider 72-inch blade, the MBB3072 allows you to cover more ground efficiently, making it perfect for maintaining larger driveways, spreading gravel, leveling soil, and reshaping terrain. Optional skid shoes are available to help protect surfaces and maintain consistent working depth.

Key Features:

- 72" working width for increased productivity
- Heavy-duty 1/4" moldboard and side panel construction
- Strong 1/2" welded lift attachment brackets for added durability
- Ideal for driveway maintenance, grading, and landscaping work
- Optional skid shoes available for surface protection
- Category 1 3-point hitch compatibility
- Designed for tractors ranging from **20-60 HP**

Specifications:

- Blade Width: 72"
- Overall Width: 76 3/16"
- Weight: 510 lbs
- Overall Height: 37"
- Length: 24"

Compatible with **LS MT3 Series tractors**, the LS MBB3072 Box Blade delivers the strength, control, and reliability needed to tackle a wide range of property maintenance and land management projects.
