Product Description

LS Tractor MT242HEC HST - Cab - w/ LL3003 Loader

The **LS Tractor MT242HEC** is a premium compact tractor built to deliver exceptional comfort, power, and versatility for property owners, farmers, and commercial operators. Designed for year-round productivity, the MT242HEC combines reliable performance with advanced operator comfort to handle demanding jobs with ease.

Powered by a dependable LS diesel engine, the MT242HEC provides strong, fuel-efficient performance for loader work, mowing, grading, landscaping, and general property maintenance. The smooth hydrostatic transmission (HST) allows for effortless forward and reverse operation, making it ideal for both experienced operators and first-time tractor owners.

The factory-installed enclosed cab features heat and air conditioning, helping keep you comfortable in all weather conditions while reducing operator fatigue. With excellent visibility, ergonomic controls, and a spacious operator station, the MT242HEC is designed for maximum productivity and comfort during long workdays.

Built with strong hydraulic capability and excellent lifting performance, this tractor is ready to handle a wide range of implements and attachments. Whether you're maintaining acreage, moving materials, or tackling landscaping projects, the MT242HEC is engineered to perform.

Key Features:

- Reliable LS diesel engine for strong, efficient performance

- Hydrostatic transmission for smooth, easy operation
- Factory-installed cab with heat and A/C for year-round comfort
- Excellent visibility and ergonomic operator controls
- Strong hydraulic performance for loader and implement operation
- Compact size with the power to handle demanding tasks
- Ideal for landscaping, grading, material handling, and property maintenance
- Compatible with a wide variety of attachments and implements

The LS MT242HEC delivers premium comfort, dependable capability, and easy operation in one versatile compact tractor package—built to help you get more done in any season.
