Product Description

Backwoods BW-TM 3-Point Hitch Trailer Mover

The Backwoods BW-TM 3-Point Hitch Trailer Mover is a handy attachment for quickly moving trailers around the farm, shop, yard, or equipment lot. It connects to your tractor's 3-point hitch, making it much easier to hook up, move, and position trailers without constantly using a truck.

This trailer mover is great for utility trailers, small equipment trailers, boat trailers, hay wagons, and other towable items around the property. It is a simple, practical tool that saves time and helps make trailer handling easier in tight spaces.

Key Features:

- 3-point hitch mounted trailer mover
- Great for moving and positioning trailers
- Handy for farms, equipment yards, shops, and large properties
- Works well for utility trailers, small equipment trailers, and wagons
- Makes trailer hookup and maneuvering easier
- Simple, durable, and easy to use

A useful attachment for landowners, farmers, and equipment owners needing a quick and convenient way to move trailers around the property.
