Product Description

Modern Ag 6' Super Sunshine Rotary Cutter

The Modern Ag 6' Super Sunshine Rotary Cutter is built for tough mowing jobs while still being easy to handle behind a compact or utility tractor. With a **72" cutting width**, this cutter is a great fit for maintaining pastures, hunting land, field edges, and general brush cleanup.

The Super Sunshine is designed with durability in mind, featuring a **3/16" deck**, **1/4" x 8" side skirt**, heavy-duty stump jumper, laminated tailwheel, and a **65 HP gearbox rating**. It also comes standard with **slip clutch protection** and a **Cat. 3 driveline**, helping protect the cutter during heavy use. The smooth-top, one-piece body and smooth underdeck design help improve mowing efficiency while reducing areas where debris and rust can build up.

The 6' model requires a minimum of **30 PTO horsepower** and offers a **2.5" cut capacity**, making it a strong choice for customers needing a dependable medium-duty cutter for regular property maintenance. It is also **Quick Hitch compatible** and offers **Cat. I & Cat. II hitch compatibility** on the 6' and 7' models.

Key Features:

- 6' / 72" cutting width
- 30 PTO HP minimum requirement
- 2.5" cut capacity
- 65 HP gearbox rating
- Cat. 3 driveline with slip clutch protection
