Product Description

Backwoods BW-RT6 Gear Drive Tiller - 6'

The Backwoods BW-RT6 Gear Drive Tiller is a dependable 6-foot rotary tiller built for garden prep, food plots, landscaping, seedbed preparation, and general property maintenance. With its 72" working width, this tiller gives you great coverage for larger gardens, small fields, and acreage projects.

The gear drive design provides strong, reliable performance for breaking up soil, mixing in compost or fertilizer, and preparing smooth planting areas. It is a great attachment for landowners, small farms, gardeners, and property owners needing an efficient way to work up ground.

Key Features:

- 6-foot / 72" working width
- Gear drive rotary tiller
- 3-point hitch attachment
- Great for gardens, food plots, landscaping, and seedbed prep
- Helps break up, mix, and level soil
- Ideal for compact and utility tractors
- Durable Backwoods construction
- Great for farm, garden, and property maintenance use

A solid choice for anyone needing a reliable 6-foot tiller for preparing gardens, food plots, and larger planting areas around the property.
