Product Description

STIHL FCS-KM Straight Lawn Edger

The **STIHL FCS-KM Straight Lawn Edger** is a durable KombiSystem attachment designed to create clean, sharp edges along sidewalks, driveways, curbs, walkways, and landscape beds. It is a great option for homeowners, landscapers, and property maintenance crews who want a professional-looking finish using their existing STIHL KombiMotor.

The straight shaft design provides excellent reach and control, making it easier to guide the edger along hard surfaces and cut through overgrown lawn edges. It is a practical attachment for keeping properties neat, defined, and well-maintained throughout the season.

Key Features:

- STIHL KombiSystem straight lawn edger attachment
- Great for sidewalks, driveways, curbs, and landscape borders
- Helps create clean, professional-looking edges
- Straight shaft design for added reach and control
- Ideal for routine lawn and landscape maintenance
- Designed for use with compatible STIHL KombiMotors
- Dependable STIHL quality and performance

A useful STIHL KombiSystem attachment for anyone wanting crisp lawn edges and a polished look around the home, business, or property.
