Product Description

Woods Single Bale Spear with Two Spikes - BS3044S

The Woods BS3044S Bale Spear is a dependable attachment built for handling hay bales around the farm, pasture, or feed lot. With a single main spear and two stabilizer spikes, this bale spear helps keep bales secure while moving, stacking, or loading.

It is a practical attachment for tractors and loaders, making hay handling quicker and easier during feeding season. Built with Woods quality, the BS3044S is a solid choice for farmers, ranchers, and property owners needing a reliable bale-moving attachment.

Key Features:

- Single main bale spear
- Two stabilizer spikes for added bale support
- Great for moving, loading, and stacking hay bales
- Helps keep bales secure during transport
- Durable Woods construction
- Ideal for farm, ranch, and livestock use

A simple, strong, and useful attachment for anyone needing an easier way to handle hay bales around the farm.
