Product Description

Woods DHS80N Disc Harrow

- The Woods DHS80N Disc Harrow is a dependable attachment built for soil preparation, garden plots, food plots, field work, and general land maintenance. It's a great tool for breaking up ground, cutting through residue, mixing soil, and preparing seedbeds.

Built with Woods quality and durability, the DHS80N is ideal for landowners, small farms, and property owners needing a reliable disc for routine tillage work. Whether you're maintaining acreage, working up a food plot, or prepping ground for planting, this disc harrow is a practical addition to your equipment lineup.

Key Features:

- Disc harrow for soil preparation and tillage
- Great for gardens, food plots, small fields, and acreage maintenance
- Helps break up soil and mix in crop residue
- Useful for preparing seedbeds and planting areas
- 3-point hitch attachment
- Durable Woods construction
- Ideal for compact and utility tractors

A solid choice for anyone needing a dependable disc harrow for food plots, field prep, and general property maintenance.
